

HP OfficeJet Pro 7740 Wide Format All-in-One Printer series

HP OfficeJet Pro 7740 in More Detail

Dynamic security: Cartridges with non-HP chips might not work today or in the future. Learn more at: <http://www.hp.com/go/learnaboutsupplies>

The HP OfficeJet Pro 7740 combines print, copy and scan functionality in a single compact device optimised for small offices and workgroups. This efficient little device uses state-of-the-art inkjet technology to print A3-size (11 x 17 inches) documents, at up to 50% less per page than a colour laser printer.

Fast print speeds for increased efficiency

The HP OfficeJet Pro 7740 uses innovative HP print technology to speed up the printing process. This enables full-colour printing at speeds of up to 18 ppm, and monochrome printing up to 34 ppm. When combined with first page out speeds as fast as 10 seconds for colour and 9 seconds for monochrome, the HP OfficeJet Pro 7740 is one of the fastest printers in its class.

Of course, fast print speeds are useless without appropriate paper-handling facilities. The HP OfficeJet Pro 7740 doesn't disappoint here either. It comes with a host of time-saving features, such as an automatic document feeder, able to handle legal-size (21.6 x 35.6 cm) documents, along with two 250-sheet paper trays as standard, giving a total capacity of 500 sheets from 2 trays.

Professional-quality printing at an affordable price

While high performance is one thing, it is useless without quality. The HP OfficeJet Pro 7740 uses advanced HP ink which produces rich colours and deep black text on a variety of paper types to guarantee professional-quality printing from a small office inkjet printer. HP inks are also resistant to water, smudging and fading so they are suitable for a variety of print jobs, including posters, legal documents, sales brochures and standard letters.

When combined with the optional high-yield cartridges, you can print up to 2x more pages from a single cartridge, saving up to 30% compared to using standard-sized cartridges.

Full connectivity options for the flexible workplace

The HP OfficeJet Pro 7740 is also built for modern flexible office requirements. It offers full Wi-Fi connectivity, allowing you to print from your PC, laptop or mobile device without being connected directly to the network.
